

To: FCC

Please reject NAB's petition 04-160. As a former listener of AM/FM I really enjoy XM's selection of music and news. It is a refreshing alternative to the constant commercials and crude DJs on AM/FM. And although I don't benefit directly from the traffic and weather channels, I would welcome them if I were in one of the cities they cover.

It is my firm opinion that the consumer and the market should dictate innovation and trends. Please allow XM to continue as they are and reject NAB's petition 04-160.

Respectfully,

Chad R. Gebhardt
